

European Guidelines Meeting on Laparoscopic Liver Surgery

10 - 11 February 2017, Hilton Ageas Bowl, Southampton, UK

Oral and Video Presentations

Friday 10th February - 10:55 - 11:15 Best Oral Presentations

Abstract no	Programme no	Title	Presenter
0035	A01	Liver resection for hepatocellular carcinoma, are we going to dismiss the traditional approach?	Levi Sandri
0004	A02	Laparoscopic liver resections for hepatocellular carcinoma. Can we extend the surgical indication in cirrhotic patients?	Cipriani
0028	A03	Laparoscopic Approach for Living Donor to Paediatric Liver Transplant	Briceño

Friday 10th February - 15:30 - 15:50 Best short Oral Presentations

Abstract no	Programme no	Title	Presenter
0015	B01	Laparoscopic liver resection in cirrhotic patients with hepatocellular carcinoma located in posterior segments: towards the "gold standard"?	Santambrogio
0033	B02	Laparoscopic Left Hepatectomy for Hepatolithiasis with Intraoperative Cholangiography Control to Avoid Damage of a Replaced Right Posterior Duct arising from the Main Left Hepatic Duct	Ciria
0038	B03	Laparoscopic versus open liver resection – A match-pair analysis	Heinrich
0032	B04	Laparoscopic Right Hepatectomy performed in a patient with Hydatid Cyst with Diaphragmatic Invasion and Single Quadrupled Portal Vein Anomaly	Gomez -Luque

Saturday 11th February - 09:50 - 10:35 Best Oral Presentations

Abstract no	Programme no	Title	Presenter
0040	C01	Incisionless Liver and Rectal Surgery (ILARS) For Stage IV Rectal Cancer	Berti
0009	C02	Role of extraglissonian approach in laparoscopic major hepatectomy	Lopez-Ben
0021	C03	Cascade training in Minimally Invasive Liver Surgery. A four centers case in Italy	Giuliani
	C04	The status and challenges in Laparoscopic Liver Surgery training; Where we are and where we need to be.	Alseidi
	C05	Risk Factors for complications after open and laparoscopic liver resection - data from the Comet-trial	Fretland

Saturday 11th February - 12:25 - 13:00 Best short Oral Presentations

Abstract no	Programme no	Title	Presenter
0016	D01	Near-infrared fluorescence guided laparoscopic resection of primary and metastatic liver tumors	Swijnenburg
0037	D02	Simultaneous total laparoscopic resection of primary colorectal cancer and associated liver metastases: a single institution experience	Ivanecz
0043	D03	Narrow margin seems adequate in laparoscopic resection of colorectal liver metastases	Lopez-Ben
0003	D04	Augmented reality by ICG immunofluorescence in pure laparoscopic hepatectomy for HCC and cirrhosis.- A propensity score analysis	Cheung
0005	D05	Laparoscopic liver resection: breaking the boundaries. A single Surgeon's experience with MILS in 129 patients over the last 10 years	Jovine
0006	D06	Laparoscopic resection of liver tumors located in the postero-superior segments: is robotic assistance an additional value?	Ferretti
